Insurance Continuing Education

All insurance agents holding licenses in any of the following lines of insurance: property, casualty, life, accident & health, and auto must complete continuing education credit-hours in each biennium. Each agent has been assigned a renewal date according to their birth month and the odd or even numbered year they were originally licensed.

It is each Licensees responsibility to ensure that no course duplication occurs. A licensee will not receive professional credit from OCI for the same course taken more than once in a biennium.

Robbins & Lloyd CTI reserves the right to cancel a course - if a course is canceled, licensees who are REGISTERED for that particular course will be notified by phone or by e-mail.
